

THE ALLIANCE TO SAVE ENERGY
CORDIALLY INVITES
YOU TO ATTEND

EEGLOBAL

2009 ENERGY EFFICIENCY
GLOBAL FORUM & EXPOSITION

April 27-29, 2009

PALAIS DES CONGRÈS • PARIS, FRANCE

IMPLEMENTING ENERGY EFFICIENCY AN INVESTMENT THAT YIELDS GLOBAL DIVIDENDS

WHY ENERGY EFFICIENCY?

Investments in energy efficiency reap huge returns - for individuals, companies, governments, economies and our planet. Global investments of US\$170 billion annually in **energy efficiency can yield \$900 billion** in avoided energy costs each year while also reducing greenhouse gas emissions dramatically.

WHY EE GLOBAL 2009?

The **Energy Efficiency Global Forum & Exposition (EE Global 2009)** is the only "one-stop conference" for the information, tools and contacts you will need to capitalize on this enormous opportunity. At EE Global 2009, the world's leading thinkers will share with you the best technologies, strategies, financing and public policy approaches for leveraging your investment in energy efficiency to the fullest.

WHY YOU?

Designed by energy efficiency experts and leaders from around the world, EE Global 2009 is the place to:

- learn about opportunities in every end-use sector and region;
- share knowledge and best solutions with international government and business leaders;
- define strategies for implementing energy efficiency worldwide, and
- forge partnerships to ensure success.

WHY NOW?

Energy efficiency has emerged as a key and cost-effective solution to climate change, energy security, and economic sustainability. Now is the time for action. **EE Global 2009** is the place to capitalize on the potential of energy efficiency.
