

PRE-CONFERENCE WORKSHOP

INTERNATIONAL ENERGY MANAGEMENT PERSPECTIVES: SAVING ENERGY, MONEY AND THE ENVIRONMENT WITH ISO 50001

WHEN 9:00 am to Noon on Monday, April 27

WHERE Room 241, Level 2, Palais des Congres, Paris

- PANELISTS**
- **Guy Deviese**, *Director of Environment, 3M, France*
 - **Bernard Gindroz**, *Director of Air, Noise, Energy Department, ADEME (French Environment and Energy Management Agency)*
 - **John O'Sullivan**, *Industry Program Manager, Sustainable Energy, Ireland*
 - **Roland Risser**, *Director Energy Efficiency, Pacific Gas & Electric, USA*

ISO 50001 is a new management standard for energy currently under development. The Energy Management System is the ultimate tool for industrial and commercial companies to optimize energy efficiency and conservation projects and to achieve continual improvement in energy performance. Results also may be critical to managing compliance with existing energy efficiency or carbon emissions reduction mandates in many countries and to generate revenues by trading energy or CO2 emission credits.

At the time when energy efficiency and carbon reduction are in all discussions pertaining to sustainable growth of the global economy, you will have the opportunity to listen to the experience of existing national and regional initiatives as well as the latest information about the international standard ISO 50001 currently in development.

The workshop will also be a timely forum to discuss with the panel of experts and the other attendees, the success factors of the deployment of Energy Management Systems in industrial and commercial companies.

EE GLOBAL WORKSHOP
APRIL 27, 2009
9:00 AM TO 11:00 AM

9:00 AM – 9:20 AM

Guy Deviese

3M experience in deploying an Enterprise wide Energy Management System: benefits and lessons learnt.

9:20 AM – 9:40 AM

John O'Sullivan

The experience of the SEI Energy Agreement Programme to drive Energy Efficiency in the Industry and the Commercial sector.

9:40 AM – 10:00 AM

Bernard Gindroz

The European Forum for the Energy Efficiency: an example of integration of the Industry and Government efforts to define effective common practices.

10:00 AM – 10:20 AM

Roland Risser

Why we need an Energy Management System Standard: ISO 50001.

10:20 AM – 11:00 AM

Discussion and Q&A
